

Series 100 Hook-Ups!

Series 100 Adjustable Picture Hanger for Conventional Installations

Hook-Ups! adjustable picture hangers are the most flexible and versatile hanging system available today. **Hook-Ups!** are designed to work on wood or metal frames. They attach to each side of the frame to form a secure, wireless, two-point mounting system that will safely hold artwork weighing up to 100 pounds. The patented design allows artwork to be leveled easily without removing the item from the wall.

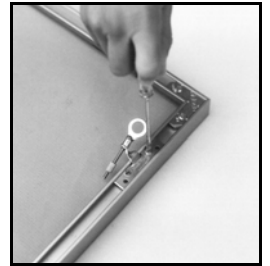

Use Conventional **Hook-Ups!** when you need the adjustable, heavyweight features, but not theft security. Conventional **Hook-Ups!** can be used with virtually any standard wall fastener such as nails, hooks, or screws.

Installing Hook-Ups! on Frames is Easy

On Wood Frames: **Hook-Ups!** install on each side of the frame, positioned about two inches from the top of the frame. Just use regular wood screws to secure each bracket to the frame.

On Metal Frames: Insert set screws into the threaded holes in the brackets. Slip each bracket into the frame channel about two inches below the top and tighten the set screws.

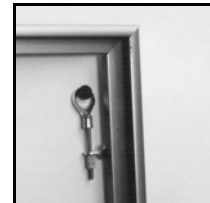

Using Series 100 Hook-Ups!

Step 1: Install two fasteners into the wall spaced the same distance as the brackets mounted on the frame. There's no need to be precise - **Hook-Ups!** are adjustable!

Step 2: Slip the round lugs over each wall fastener. **Hook-Ups!** will work with nearly any type of fastener.

Empty frame for illustration

The frame is now securely supported at two points. That means less stress on the frame and the wall.

Step 3: Level the frame by simply reaching behind and rotating the adjusters. There is no need to remove the artwork from the wall to make adjustments.

Ordering Information

Conventional Hook-Ups! are available in two convenient forms:

- Order **Part #113 - Individually packaged pair** complete with mounting hardware for both wood and metal frames. (Wall fasteners not included.)
- Order **Part #100 - Bulk packaged pairs** of just the hangers. Screws to attach hangers to the frames must be purchased separately.
